

# PRESS RELEASE

26th September 2023

## Motulus Aero joins Yocova as a member of the Partner Programme

[Motulus Aero](#), the provider of pioneering optimisation solutions and consultancy services to the aviation sector has joined the Yocova Partner Programme. As a Yocova Partner, Motulus Aero can easily connect with a global network of aviation enterprises and professionals, and easily market and sell its solutions and services on the Yocova Marketplace.

Motulus was founded in 2018 by a team of experts in mathematical algorithms, software engineering and high-performance computing, and currently has two solutions in place in two European airlines. It also offers optimisation consultancy and long-term and strategic planning services across the aviation sector.

Since joining the Yocova platform, the Motulus Aero team has been quick to take advantage of the benefits of the Yocova platform and has listed its consultancy services on the Marketplace.

Motulus Aero's [Optimization Consultancy](#) helps to manage and find balance between maximising revenue, reducing costs, building robust operations and increasing employee satisfaction. The service can be applied to functions such as crew planning, network design, engineering and airport planning but can also extend to other complex problems.

### Motulus Aero comment

"We are excited to join the Yocova Partner programme. At Motulus we are dedicated to delivering optimization solutions to solve challenges across aviation. We see this programme as a great opportunity to connect with such a diverse range of professionals across the Yocova community. We look forward to many interesting discussions across all functions of the aviation industry."

### Yocova comment

"We're delighted that Motulus Aero has joined the Yocova Partner programme. As a provider of consultancy services specifically within the aviation sector, the team is now able to connect more widely with businesses and professionals via our global network, and market and sell their innovative services on the Yocova Marketplace. Motulus Aero's services optimise businesses across the aviation sector, so the benefits of this partnership extend not only to its own business, but to the 7500+ Yocova community as well."

### About Yocova

Yocova (You Connect for Value) is an open, neutral digital platform and ecosystem for the aviation industry to collaborate, manage data, and access leading digital services from OEM partners and digital vendors.

It's an end-to-end platform for innovation: digital infrastructure and services to facilitate the exchange of ideas, data, and apps in aviation.

The platform is structured around the pillars of Community, Data Rooms, Marketplace, and Enterprise engagement:

- **Community:** the global aviation community on one open and trusted platform – connect and collaborate with aviation peers in public forums and private working groups
- **Data collaboration:** a decentralised, secure, and voluntary data API exchange giving you full control of who accesses your data to support your digital initiatives
- **Marketplace:** a trusted 'go to' aviation marketplace for digital transformation – find, try, buy, and deploy leading digital aviation apps, data API's solutions and services, or sell and manage your own through a global route-to-market
- **Enterprise engagement:** Yocova provides a single command and control platform through which to securely distribute, authenticate, and update all digital content across the customer community.

For OEM partners, Yocova provides a single command and control platform through which to securely distribute, authenticate, and update all digital content across the customer community. For OEM customers, a single entry-point for swift, efficient user access to all OEM digital content.

Yocova continues to pursue its growth strategy at pace with over 7,500 aviation professional members from across 425+ airlines and 840+ aviation enterprises extending across the aviation value chain, including but not limited to professionals and enterprises from airlines, business jet operators, digital/data vendors, through to airports, ANSPs and OEMs.

### About Motulus Aero

[Motulus Aero](#) was formed in 2018 by a team of IT and mathematics experts and is based in Antwerp, Belgium. The team uses state-of-the-art research and development in mathematics, computer science and other scientific fields to create optimisation solutions for business within the aviation industry.
